Really? Are we doing this again?. And so blatantly marked with the sign of their lord to signal to all satanists that it's a scam. The Russian plague pysop began on September 25, 2026. Which is 6 Years, 6 Months and 6 Days from the covid scam flu renaming psyop lockdown start date in the U.S.

To add to the pageantry Taylor Swift drops her song Patient Zero on this same day.

Hmmm. Smells like a psyop to me.

Not that we would believe anything our governments or medical institutions would tell us anyway, but when you add sloppy psyop traits like this, it's time to ignore the hype.

Checking the math:

They have not come clean or been hung for their previous covid flu renaming genocidal plot, and thus still walk free, able to launch new bioweapon injection campaigns to save you from their latest fake virus outbreak.

Maybe if enough people laugh at this one like the previous scamdemic rehash attempts like monkey pox, shingles, ebola, it will disappear just as quick.

As usual, DO NOT COMPLY!.

Should we not stop this crap from surfacing in the first place?. Can we not as a human civilization track down and hold accountable those who commit genocide, like the perpetrators of the covid scam for example? Isn't it about bloody time?

Hey! I've seen this one. It's a classic!

Taylor Swift's song 'Patient Zero' dropped September 25, 2026.
That same day, a scientist at Russia's Anti-Plague Institute broke a tube of live plague bacteria.
She died on October 2...the day the song hit No. 1.
September 25 is exactly 6 years, 6 months, and 6 days after March 19, 2020, when the U.S. began Covid lockdowns.

Thankfully others are seeing the signs of a psyop
